Add a Modern Touch

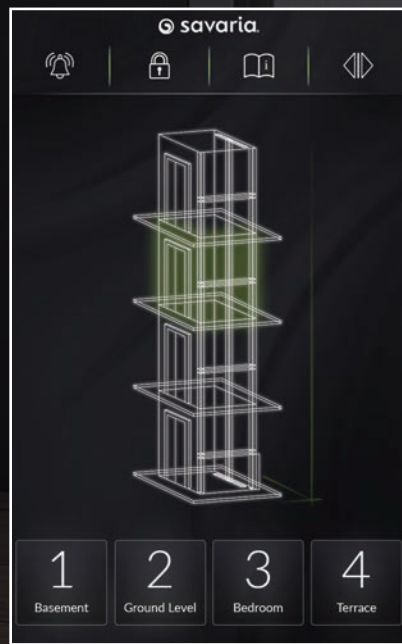

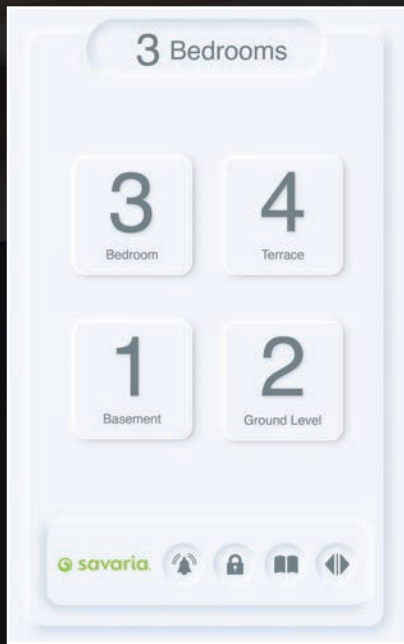

The Savaria touch screen COP (cab operating panel) provides control for the operation of your home elevator for desired floor, door opening and alarm functions on the large glass screen. Animated themes show the movement as the elevator travels floor-to-floor. Choose your theme suit your décor, or even your mood of the moment with a simple swipe. You can customize the landing names for your home when you order your elevator. The touchscreen is available for the Savaria Eclipse and Zenith home elevators.

swipe for
change

Choose a theme, change your theme

With a quick swipe, select the screen you want. From the simplicity of white to botanical green, vintage art deco, or the drama of architectural black, there's a theme for your style. Customized for the number of stops and landing names in your home, each theme features movement or animated actions.

at your fingertips

The touch screen COP is available for the Savaria Eclipse and Zenith models in North America and Australia. Please note this upgrade is not available for concurrent landing models (two-doors at one landing), and the screen does not meet NCC E3.6 accessibility guidelines. Please consult your authorized Savaria dealer for complete details and specifications.
